## Abstracts

Online learning involves courses offered by postsecondary institutions that are 100% virtual, excluding massively open online courses (MOOCs). In the domain of higher education there are two distinct methods in which a learner can engage with an academic institution; the traditional method of brick-and-mortar facilities and the virtual method through online learning.

Based on the Online Higher Education market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
