## Abstracts

The mouth is the beginning of the digestive tract. The former excises are connected to the outside world, and then continue through the pharyngeal gorge. There are organs such as teeth and tongue in the mouth. The front wall of the oral cavity is a lip, the side wall is a cheek, the top is a sputum, and the bottom of the mouth is a mucosa and a muscle.

Based on the Oral Care market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
