Abstracts

Organized retailing is the process of selling goods or merchandise all under one roof in a fixed location such as a departmental store, hypermarket, supermarket or even a convenience store. Organized retail also includes internet retailing, which is the process of buying and selling products and services, such as COD, card on delivery, or trial services, through the internet.

Based on the Organized Retail market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
