Abstracts

A pharmacy benefit manager (PBM) is a third-party administrator of prescription-drug programs for end payers, such as private insurers, and Benefit Plan Design and Consultation. With preferred formularies and exclusion lists, PBMs dictate which drugs consumers can receive from their plan without incurring additional out-of-pocket costs. They also leverage access to their formularies, and threats of exclusion, to negotiate rebates and discounts from the world's drug makers.

Based on the Pharmacy Benefit Management (PBM) market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
