## Abstracts

Bike safety has become one of the most important concerns for riders in recent times and to ensure safety a helmet comes handy. When motorcycles crash, their riders lack the protection of an enclosed vehicle, so they're more likely to be injured or killed. A serious head injury is common among fatally injured motorcyclists and so using a helmet is important. Helmets are about 37 percent effective in preventing motorcycle deaths and about 67 percent effective in preventing brain injuries. Therefore helmets are necessary for normal commuters and riders as well.
