## Abstracts

Relaxation Beverages are non-alcoholic beverage containing calming ingredients normally found in nature. It is a functional beverage which serves to calm a person but unlike other calming beverages such as tea, relaxation drinks almost universally contain more than one active ingredient. Relaxation drinks may be served chilled and carbonated. Others have now been introduced in shot-form.

Based on the Relaxation Beverages market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
