Abstracts

Retail clinics are a group of appointment clinics for retail stores, supermarkets and pharmacies that can treat simple mild illnesses and provide preventive health services. They are sometimes referred to as 'retail clinics', 'convenience nursing clinics' or 'box nurses.' Retail clinics usually consist of a practicing nurse (NP) or a physician assistant (PA) and do not necessarily have a doctor at the site. However, some people are made up of doctors.

Based on the Retail Clinics In Store Healthcare market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
