Abstracts

Broken rice is fragments of rice grains, broken in the field, during drying, during transport, or by milling. Mechanical separators are used to separate the broken grains from the whole grains and sort them by size. Broken rice is fragmented, not defective; there is nothing wrong with it. It is as nutritious as the equivalent unbroken rice.

Based on the Rice and Broken Rice market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
