Abstracts

Self-Drive car rental is generally referred to as car rental. It means that the car rental company provides vehicles for customers to use and collect fees from them. The lease period is short from several hours and can last for several years. Car rental companies usually set up business locations in various places to facilitate customers to rent and return cars. The business base is usually located at the airport, the station, the city center, etc., and a website is opened to allow customers to pre-order the date, model, and rental location.

Based on the Self-Drive Car Rental market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
