Abstracts

Sheet masks are face-shaped sheet fabrics soaked in nutrition-packed solution called serum. The sheet is made up of variety of materials including papers, fibers or gel types. These sheet masks are different from facial masks (paste type) that you only need to apply, take off or pat in extra serum instead of washing the paste after applying and putting on other skincare products. Sheet mask is generally used once and it is individually packaged, making them fast, convenient, and easy to use.
