## Abstracts

Social software is a category of software systems that primarily functions to allow user collaboration and communication. Social media advertising software allows users to place ads on Twitter, LinkedIn, Facebook, and/or other social media platforms. Some social ad campaigns are designed to promote brand awareness, while others are direct response/click-through ads that aim to generate leads or revenue.

Based on the Social Advertising Software market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
