Abstracts

Dessert is a course that concludes a meal; oftentimes an evening meal. The course usually consists of sweet foods, such as confections dishes or fruit, and possibly a beverage such as dessert wine or liqueur, but may include coffee, cheeses, nuts, or other savory items. In some parts of the world, such as much of central and western Africa, and most parts of China, there is no tradition of a dessert course to conclude a meal. Soy dessert is a kind of dessert which is made of soy.

Based on the Soy Desserts market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
