## Abstracts

The spa is a mineral-rich spring (sometimes seawater) used to provide a medicated bath. Spa towns or spa resorts (including spa resorts) usually offer a variety of health therapies, also known as bath therapies. The belief in the therapeutic capabilities of mineral water dates back to prehistoric times. The day spa is also very popular and offers a variety of personal care services.

Based on the SPA market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
