## Abstracts

Subscription billing can be a complicated business model that involves physical and/or digital means for a customer subscribed to a service to pay for it and maintain access to it. A great number of businesses and websites are currently accessing these services to obtain a better management of their clientele and subscribers. Several services providers from the global subscription and billing management market are also providing automatic payment options or a periodic payment of bills, which can be done by linking a user's credit or debit cards or bank account. This brings into perspective the heavy layer of security that needs to be added to each billing and payment process in order to generate a greater credibility from a customer and to avoid legal and financial issues in the event of frauds or hacking. A lot of players from the global subscription and billing management market also provide loyalty perks and added services to gather a greater favor from clients into using their solutions. Value addition thus becomes a key trend in the market for the time being.

Based on the Subscription And Billing Management market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
