## Abstracts

Superfoods have a high nutrient value and offer several health benefits. Chia seeds, flax seeds, watermelon seeds, pumpkin seeds, beetroot chips, kale chips, spirulina, moringa wheatgrass, coconut, and almond are some of the superfoods. Raw organic hemp protein powder and shelled hemp seeds are super food, rich in nutrients (proteins, antioxidants, amino and fatty acids). High in protein, balanced in omega 3, 6 and 9, full of antioxidants, amino acids and other essential nutrients, products including hemp milk, hulled and toasted seeds, energy bars, hemp seed oil, cereal and hemp protein powder are finding their way into the diets of health-conscious consumers. Based on the Superfood Snacks market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
