## Abstracts

Syndiotactic Polystyrene provides a good balance and competes well against other materials in a wide variety of applications. It has excellent flow and heat properties with cost advantages compared to LCP and PPS, provides better temperature performance than PBT and PET, and has lower moisture absorption than nylon 6/6, PPA, and PBT. It also has a very low dielectric constant of 2.5 and is IR solderable.

The report combines extensive quantitative analysis and exhaustive qualitative analysis, ranges from a macro overview of the total market size, industry chain, and market dynamics to micro details of segment markets by type, application and region, and, as a result, provides a holistic view of, as well as a deep insight into the Syndiotactic Polystyrene market covering all its essential aspects.
