## Abstracts

The tennis strings refers to the line used to hit tennis on the racket during tennis. The thinner tennis strings is able to feed the ball deeper, which means more rotation and control. The thicker tennis strings is more durable, so it is more suitable for bottom-line players who often take the initiative.

Based on the Tennis Strings market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
