Abstracts

The Tigernut (*Cyperus sculentus lativum*) or 'Chufa' as it is known in Spanish, is not actually a nut, but a small tuber. It was first discovered 4000 years ago and comes in several sizes. Tigernuts have long been recognised for their health benefits, as they are high in fibre, proteins, and natural sugars. The Tigernut is a tuber that has been used for centuries in an important part of Africa. The ancient Egyptians, one of the greatest civilizations of antiquity, already used this food for its magnificent healing and regenerative properties.

Based on the Tiger Nut market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
