## **Abstracts**

Title insurance is a form of indemnity insurance predominantly found in the United States which insures against financial loss from defects in title to real property and from the invalidity or unenforceability of mortgage loans. The vast majority of title insurance policies are written on land within the United States. Unlike some land registration systems in countries outside the US, the US states' recorder of deeds generally do not guarantee indefeasible title to those recorded titles. Title insurance will defend against a lawsuit attacking the title, or reimburse the insured for the actual monetary loss incurred up to the dollar amount of insurance provided by the policy.

The Title Insurance market revenue was xx Million USD in 2016, grew to xx Million USD in 2020, and will reach xx Million USD in 2026, with a CAGR of xx during 2020-2026.
