## Abstracts

Turf is a smooth grass with good quality and soft color. It is suitable for golf courses, fields, nurseries, lawns, gardens and other aspects. Turf grass and Turf solutions are mainly developed for control purposes. Soil erosion reduces weeds and dust from foot traffic. There are various types of turf, roughly divided into cold and warm season types. Based on the Turf Grass and Turf Solutions market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
