Abstracts

Workforce management can be defined as an integrated set of processes any particular institution uses to optimize the productivity of its employees on the individual, departmental, and entity-wide levels. In a company workforce management involves matching employee skills to specific tasks over time, quantifying the amount and types of labor needed to accomplish particular jobs on a day-to-day or hour-to-hour basis. Based on the Workforce Management market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
