Abstracts

The Urban air mobility (UAM) transportation systems are being developed to address the pressing issue of traffic congestion, especially in the major cities of the world. The aircraft used in UAM is making progress along both manned and unmanned directions. While conventional civil helicopters are the most common type of aircraft that are being used in UAM currently multicopters (such as the Volocopter) or so-called tiltwing convertiplane aircraft.

A vertiport is essentially a landing and take-off infrastructure for Vertical Take-Off and Landing (VTOL) aircraft, which can include air taxis, passenger aerial vehicles, cargo aerial vehicles, and air ambulances. The term 'vertiport' is derived from the words 'vertical' and 'airport', and it is a defined area that is specifically designed to accommodate the unique needs of VTOL aircraft.

In the UAM industry sustainability is a major focus, with electric propulsion and the use of renewable energy sources being prioritized to decrease environmental impact. Collaboration and partnerships between companies and organizations in the UAM industry are being formed to push technology forward and bring products to market. Major aerospace companies like Airbus and Boeing apart from ride hailing apps are investing heavily in electric vertical take-off and landing (eVTOL) aircraft technology.

Market Forecast's latest report "Urban Air Mobility and Vertiports - Market and Technology Forecast to 2031" examines, analyzes, and predicts the evolution of Urban Air Mobility technologies, markets, and outlays (expenditures) over the next 8 years – 2023 -2031. It also examines the UAM markets geographically, focusing on the top 95% of global markets, in the United States, Europe, and Asia. In this report we analyze the market size of the Global Urban Air Mobility market for the period 2023 -2031. We

primarily focus on the key markets – Americas, Europe, Asia, Middle East, and Africa. As of now the United States remains the largest market UAM. European Union and China are emerging markets. Throughout the report we show how UAM is used today to add real value. To provide the most thorough and realistic forecast, this report provides a twin-scenario analysis, including “steady state”, emergence of UAM aircraft technology.

Covered in this report

Overview: Snapshot of the Urban Air Mobility (UAM) and Vertiports tech in the civilian market during 2023-2031, including highlights of the demand drivers, trends, and challenges. It also provides a snapshot of the spending with respect to regions as well as segments. It also sheds light on the emergence of new technologies

Market Dynamics: Insights into the technological developments in the UAM & Vertiports market and a detailed analysis of the changing preferences of governments around the world. It also analyzes changing industry structure trends and the challenges faced by the industry participants.

Segment Analysis: Insights into the various systems market from a segmental perspective and a detailed analysis of factors influencing the market for each segment.

Regional Review: Insights into modernisation patterns and budgetary allocation for top countries within a region.

Regional Analysis: Insights into the systems market from a regional perspective and a detailed analysis of factors influencing the market for each region.

Trend Analysis: Key UAM markets: Analysis of the key markets in each region, providing an analysis of the various Systems segments expected to be in demand in each region.

Key Program Analysis: Details of the top programs in each segment expected to be executed during the forecast period.

Competitive landscape Analysis: Analysis of competitive landscape of this industry. It provides an overview of key companies, together with insights such

as key alliances, strategic initiatives, and a brief financial analysis.

Segmentation

In this study we have classified Urban Air Mobility & Vertiports under four (4) major Segments. We will research these four major segments and provide forecast figures from 2023 – 2031. These major segments are:

Region

Americas

Europe

Asia

Middle East

Africa

Vertiport Infrastructure

Vertiports

Traffic Management

Pilot Training

Operations

Service

Air Taxi

Passenger Aerial Vehicle

Cargo Aerial Vehicle

Air Ambulance

Platform

Rotary Wing

Tilt/Wing Prop

Lift + Cruise

Tailsitter

Reasons to buy

Determine prospective investment areas based on a detailed trend analysis of the Global Urban Air Mobility Market over the next eight years

Gain in-depth understanding about the underlying factors driving demand for different systems segments in the top spending countries across the world and identify the opportunities offered by each of them

Strengthen your understanding of the market in terms of demand drivers, industry trends, and the latest technological developments, among others

Identify the major channels that are driving the global small sat business, providing a clear picture about future opportunities that can be tapped, resulting in revenue expansion

Channelize resources by focusing on the ongoing programs that are being undertaken by the ministries of different countries within the small sat market

Make correct business decisions based on thorough analysis of the total competitive landscape of the sector with detailed profiles of the top systems

providers around the world which include information about their products, alliances, recent contract wins and financial analysis wherever available

Contents

1 INTRODUCTION

- 1.1 Scope
- 1.2 Methodology
- 1.3 Who will benefit from this study?
 - 1.3.1 Business Leaders & Business Developers
 - 1.3.2 Aircraft Manufacturers
 - 1.3.3 Policy Makers, Analysts and Planners
 - 1.3.4 Tech Companies

2 EXECUTIVE SUMMARY

- 2.1 Trends and Insights
- 2.2 Main Findings
- 2.3 Key Conclusions
- 2.4 Important Tables and Figures

3 TECHNOLOGIES AND DEVELOPMENTS

- 3.1 Technology overview
 - 3.1.1 Software Technologies
 - 3.1.2 Hardware Technologies
 - 3.1.3 Infrastructure for Urban Air Mobility
- 3.2 Building Vertiports

4 MARKET OVERVIEW

- 4.1 Introduction
- 4.2 Urban Air Mobility & Vertiports market volumes distribution over forecast period by Region
- 4.3 Competitive Landscape
- 4.4 Supply/Value chain/ Market share analysis
- 4.5 Top companies in Urban Air Mobility & Vertiport market (based on turnover)
- 4.6 Important movements/developments (like mergers, joint ventures, partnership) in the market

5 MARKET ANALYSIS AND FORECAST FACTORS

5.1 Market Segmentation

5.2 Drivers

5.3 Trends

5.4 Opportunities

5.5 Challenges

5.6 Forecast Factors

6 COUNTRY ANALYSIS

6.1 North & South America

6.2 Europe

6.3 Countries in Asia

6.4 Countries in the Middle East

6.5 Countries in Africa

7 GLOBAL AND REGIONAL MARKET FORECAST TO 2031

7.1 Introduction

7.2 Urban Air Mobility market by Region overview

7.2.1 Americas: Urban Air Mobility market by Region

7.2.2 Europe: Urban Air Mobility market by Region

7.2.3 Asia: Urban Air Mobility market by Region

7.2.4 Middle East: Urban Air Mobility market by Region

7.2.5 Africa: Urban Air Mobility market by Region

7.3 Opportunity Analysis

8 VERTIPORT INFRASTRUCTURE MARKET FORECAST TO 2031

8.1 Introduction

8.2 Vertiport Infrastructure market overview

8.2.1 Vertiports: Urban Air Mobility market by Vertiport Infrastructure

8.2.2 Traffic Management: Urban Air Mobility market by Vertiport Infrastructure

8.2.3 Pilot Training: Urban Air Mobility market by Vertiport Infrastructure

8.2.4 Operations: Urban Air Mobility market by Vertiport Infrastructure

8.3 Opportunity Analysis

9 SERVICE MARKET FORECAST TO 2031

9.1 Introduction

9.2 Urban Air Mobility & Vertiports market by Service overview

9.2.1 Air Taxi: Urban Air Mobility & Vertiports market by Service

9.2.2 Passenger Aerial Vehicle: Urban Air Mobility & Vertiports market by Service

9.2.3 Cargo Aerial Vehicle: Urban Air Mobility & Vertiports market by Service

9.2.4 Air Ambulance: Urban Air Mobility & Vertiports market by Service

9.3 Opportunity Analysis

10 PLATFORM MARKET FORECAST TO 2031

10.1 Introduction

10.2 Urban Air Mobility & Vertiports market by Platform overview

10.2.1 Rotary Wing: Urban Air Mobility & Vertiports market by Platform

10.2.2 Tilt/Wing prop: Urban Air Mobility & Vertiports market by Platform

10.2.3 Lift & Cruise: Urban Air Mobility & Vertiports market by Platform

10.2.4 Tail Sitter: Urban Air Mobility & Vertiports market by Platform

10.3 Opportunity Analysis

11 GLOBAL AND REGIONAL EVENT FORECAST TO 2031

11.1 Introduction

11.2 Urban Air Mobility market by Region overview

11.2.1 Americas: Urban Air Mobility market by Region

11.2.2 Europe: Urban Air Mobility market by Region

11.2.3 Asia: Urban Air Mobility market by Region

11.2.4 Middle East: Urban Air Mobility market by Region

11.2.5 Africa: Urban Air Mobility market by Region

11.3 Opportunity Analysis

12 VERTIPORT INFRASTRUCTURE EVENT FORECAST TO 2031

12.1 Introduction

12.2 Vertiport Infrastructure market overview

12.2.1 Vertiports: Urban Air Mobility market by Vertiport Infrastructure

12.2.2 Traffic Management: Urban Air Mobility market by Vertiport Infrastructure

12.2.3 Pilot Training: Urban Air Mobility market by Vertiport Infrastructure

12.2.4 Operations: Urban Air Mobility market by Vertiport Infrastructure

12.3 Opportunity Analysis

13 SERVICE EVENT FORECAST TO 2031

13.1 Introduction

13.2 Service market overview

13.2.1 Air Taxi: Urban Air Mobility & Vertiport Infrastructure market by Service

13.2.2 Passenger Aerial Vehicle: Urban Air Mobility market & Vertiport Infrastructure by Service

13.2.3 Cargo Aerial Vehicle: Urban Air Mobility market & Vertiport Infrastructure by Service

13.2.4 Air Ambulance: Urban Air Mobility market & Vertiport Infrastructure by Service

13.3 Opportunity Analysis

14 PLATFORM EVENT FORECAST TO 2031

14.1 Introduction

14.2 Platform market overview

14.2.1 Rotary Wing: Urban Air Mobility & Vertiport Infrastructure market by Platform

14.2.2 Tilt/Wing Prop: Urban Air Mobility market & Vertiport Infrastructure by Platform

14.2.3 Lift + Cruise: Urban Air Mobility market & Vertiport Infrastructure by Platform

14.2.4 Tailsitter: Urban Air Mobility market & Vertiport Infrastructure by Platform

14.3 Opportunity Analysis

15 IMPACT ANALYSIS

15.1 Introduction

15.1.1 Scenario 1: Market Forecast Impact Analysis

15.1.2 Scenario 2: Event Forecast Impact Analysis

16 LEADING COMPANIES

16.1 Introduction

16.2 Airbus

16.2.1 Company profile

16.2.2 Financial info (revenues, profit last 5 years)

16.2.3 Recent contract wins

16.2.4 Recent Projects completed

16.2.5 Strategic Alliances

16.2.6 SWOT Analysis

16.3 BAE Systems

- 16.3.1 Company profile
- 16.3.2 Financial info (revenues, profit last 5 years)
- 16.3.3 Recent contract wins
- 16.3.4 Recent Projects completed
- 16.3.5 Strategic Alliances
- 16.3.6 SWOT Analysis
- 16.4 Boeing
 - 16.4.1 Company profile
 - 16.4.2 Financial info (revenues, profit last 5 years)
 - 16.4.3 Recent contract wins
 - 16.4.4 Recent Projects completed
 - 16.4.5 Strategic Alliances
 - 16.4.6 SWOT Analysis
- 16.5 Israel Aerospace Industries (IAI)
 - 16.5.1 Company profile
 - 16.5.2 Financial info (revenues, profit last 5 years)
 - 16.5.3 Recent contract wins
 - 16.5.4 Recent Projects completed
 - 16.5.5 Strategic Alliances
 - 16.5.6 SWOT Analysis
- 16.6 Leonardo
 - 16.6.1 Company profile
 - 16.6.2 Financial info (revenues, profit last 5 years)
 - 16.6.3 Recent contract wins
 - 16.6.4 Recent Projects completed
 - 16.6.5 Strategic Alliances
 - 16.6.6 SWOT Analysis
- 16.7 Lockheed Martin Corp.
 - 16.7.1 Company profile
 - 16.7.2 Financial info (revenues, profit last 5 years)
 - 16.7.3 Recent contract wins
 - 16.7.4 Recent Projects completed
 - 16.7.5 Strategic Alliances
 - 16.7.6 SWOT Analysis
- 16.8 Northrop Grumman Corp.
 - 16.8.1 Company profile
 - 16.8.2 Financial info (revenues, profit last 5 years)
 - 16.8.3 Recent contract wins
 - 16.8.4 Recent Projects completed

- 16.8.5 Strategic Alliances
- 16.8.6 SWOT Analysis
- 16.9 Saab
 - 16.9.1 Company profile
 - 16.9.2 Financial info (revenues, profit last 5 years)
 - 16.9.3 Recent contract wins
 - 16.9.4 Recent Projects completed
 - 16.9.5 Strategic Alliances
