Airlines Global Industry Guide - Market Summary, Competitive Analysis and Forecast, 2016-2025

SUMMARY

Global Airlines industry profile provides top-line qualitative and quantitative summary information including: industry size (value and volume 2016-20, and forecast to 2025). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the industry.

KEY HIGHLIGHTS

The airlines industry comprises passenger air transportation, including scheduled flights but excluding air freight transport.

Industry volumes are defined as the total number of seats sold by airlines registered within the specified country or region. Industry value is defined as the total revenue obtained by airlines from transporting passengers, calculated by applying the average revenue per passenger and applying this to a number of seats sold.

All market data and forecasts are represented in nominal terms (i.e., without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2020 annual average exchange rates.

The global airlines industry had total revenues of \$340.4bn in 2020, representing a compound annual rate of change (CARC) of -21% between 2016 and 2020.

Industry consumption volumes declined with a CARC of -19.2% between 2016 and 2020, to reach a total of 2,055.4 million seats sold in 2020.

Domestic and international tourism saw a marked decline in 2020 due to travel restrictions and lockdowns.
