Airlines in India

Summary

Airlines in India industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

Airlines industry covers passenger air transportation, including scheduled flights but excludes air freight transport. Industry volume is defined as the total seats sold by airlines registered in a particular country or region. Industry value is defined as the total airline revenue generated from passenger traffic. It is calculated by multiplying the average revenue per passenger by the seats sold.

The Indian airlines industry recorded revenues of \$17.3 billion in 2023, representing a compound annual growth rate (CAGR) of 3.5% between 2018 and 2023.

Industry consumption volume increased with a CAGR of 0.5% between 2018 and 2023, to reach a total of 211,330.4 thousand seats in 2023.

The strong growth in consumption within the Indian airlines industry in 2023 can be attributed to various interconnected factors, including rising passenger demand, infrastructure improvements, the proliferation of low-cost carriers (LCCs), and favorable government policies.
