### Apparel & Non-Apparel Manufacturing in South Africa

#### Summary

Apparel & Non-Apparel Manufacturing in South Africa industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

#### Key Highlights

The apparel & non-apparel manufacturing market is segmented into apparel and non-apparel products. The market value refers to the revenue generated by apparel and non-apparel manufacturers in a specific year.

The South African apparel & non-apparel manufacturing market recorded revenues of \$5,905.8 million in 2023, representing a compound annual growth rate (CAGR) of -0.2% between 2018 and 2023.

The apparel segment accounted for the market's largest proportion in 2023, with total revenues of \$5,574 million, equivalent to 94.4% of the market's overall value.

In 2023, the South African apparel and non-apparel manufacturing market faced a decline driven by a combination of economic challenges and structural inefficiencies. A key factor was the country's persistent energy crisis, characterized by frequent power outages and escalating electricity costs, which

severely disrupted manufacturing operations and increased production costs. This instability made it difficult for domestic manufacturers to maintain consistent output and competitiveness. Additionally, high operational costs and rigid labor regulations further exacerbated the situation, limiting the ability of manufacturers to scale up production or invest in new technologies.
