Summary

Apparel Retail in Hungary industry profile provides top-line qualitative and quantitative summary information including: market size (value and volume 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

The apparel retail market is segmented into childrenswear, menswear, and womenswear. The market value represents retail sales.

The Hungarian apparel retail industry recorded revenues of \$2.7 billion in 2023, representing a compound annual growth rate (CAGR) of 1.1% between 2018 and 2023.

The womenswear segment accounted for the industry's largest proportion in 2023, with total revenues of \$1.5 billion, equivalent to 55.8% of the industry's overall value.

This rising consumer confidence is a key driver for the apparel retail industry, as consumers are more willing to spend on clothing and fashion items that enhance their lifestyle. According to the Organisation for Economic Co-operation and Development (OECD), the consumer confidence index in Hungary reached 99.02 in August 2023, up from 97.68 in August 2022.
