Apparel Retail in France

Summary

Apparel Retail in France industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

The apparel retail market is segmented into childrenswear, menswear, and womenswear. The market value represents retail sales.

The French apparel retail industry recorded revenues of \$37.8 billion in 2023, representing a negative compound annual growth rate (CAGR) of 1.4% between 2018 and 2023.

The womenswear segment accounted for the industry's largest proportion in 2023, with total revenues of \$20.8 billion, equivalent to 55.1% of the industry's overall value.

The French apparel retail industry's decline in 2023 can be attributed to several factors, including the government's proactive stance on environmental issues, particularly targeting the fast fashion industry. France's lower house of parliament passed a bill aimed at curbing the environmental impact of cheap, disposable clothing, which significantly impacted the industry.
