SUMMARY

Car Rental in South Korea industry profile provides top-line qualitative and quantitative summary information including: market size (value 2016-20, and forecast to 2025). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The car rental market is defined as revenues generated by car rental companies for self-drive cars for hire. The market value is made up of car rentals for business, leisure purposes and Insurance replacement. Market volumes represent the size of the rental car fleet within the respective countries. The calculation excludes leasing and long term rentals. Taxis/cabs or any other passenger vehicles driven by drivers are excluded from the calculation. The distribution channels are represented by airport and non airport locations calculated for leisure and business segments only. Other distribution channel represents the value of the fleet rented for insurance purpose. All market data and forecasts are represented in nominal terms (i.e., without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2020 annual average exchange rates.

The South Korean car rental market had total revenues of \$939.1m in 2020,

representing a compound annual rate of change (CARC) of -17.8% between 2016 and 2020.

Market consumption volumes declined with a CARC of -9.3% between 2016 and 2020, to reach a total fleet size of 131,000 in 2020.

Domestic and international tourism saw a marked decline in 2020 due to travel restrictions and lockdowns, which impacted the car rental market.
