The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The casinos and gaming market consists of all forms of betting and gaming. All values are stated in terms of gross gaming win (GGR). This is the total amount waged by customers minus the total amount paid out to customers as winnings, but before the payment of any applicable taxes, disbursements to charitable or other causes by games established for those purposes, or other expenses.

The US casinos and gaming sector had total gross gaming win of \$156.1bn in 2019, representing a compound annual growth rate (CAGR) of 2.2% between 2015 and 2019.

The lotteries segment was the sector's most lucrative in 2019, with total gross gaming win of \$81.2bn, equivalent to 52% of the sector's overall value.

The casino gaming sector witnessed significant revenue growth in 2018, after several major American commercial casino states came up with new policies.
