Chemicals Market Summary, Competitive Analysis and Forecast to 2027 (Global Almanac)

Summary

Global Chemicals industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

The chemicals market is categorized into commodity chemicals, specialty chemicals, and agriculture chemicals. Market values are taken as the country's consumption of chemical products at producer selling price (PSP).

The market is built by capturing information at the national level for each country covered, primarily from councils, associations or government sources. Forecasts are based on projections of key market drivers for the chemical industry, and these are correlated against historic data and used to predict output over a five-year time horizon.

All market data and forecasts are represented in nominal terms (i.e., without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2022 annual average exchange rates.

The global chemicals market had total revenues of \$4,191.2 billion in 2022, representing a compound annual growth rate (CAGR) of 4% between 2017 and 2022.

The Commodity Chemicals segment accounted for market's the largest proportion in 2022, with total revenues of \$2,236.3 billion, equivalent to 53.4% of the market's overall value.

Asia-Pacific accounted for the largest share of the global chemical market in 2022, followed by Europe and the US.

Scope

Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the global chemicals market

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the global chemicals market

Leading company profiles reveal details of key chemicals market players' global operations and financial performance

Add weight to presentations and pitches by understanding the future growth prospects of the global chemicals market with five year forecasts

Reasons to Buy

What was the size of the global chemicals market by value in 2022?

What will be the size of the global chemicals market in 2027?

What factors are affecting the strength of competition in the global chemicals market?

How has the market performed over the last five years?

What are the main segments that make up the global chemicals market?
