The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### Key Highlights

The car rental market is defined as revenues generated by car rental companies for self-drive cars for hire. The market value includes car rentals for business, leisure purposes, and insurance replacement. Market volumes represent the size of the rental car fleet (absolute unit) within the respective countries. The calculation excludes leasing and long-term rentals. Taxis/cabs or other passenger vehicles driven by drivers are excluded from the calculation. Distribution channels are divided into airport and non-airport locations, with a focus on leisure and business segments. Other distribution channel represents the value of the fleet rented for insurance purpose.

The Chinese car rentals market had total revenues of \$980.9 million in 2022, representing a negative compound annual growth rate (CAGR) of 15% between 2017 and 2022.

Market consumption volumes declined with a negative CAGR of 6.6% between

2017 and 2022, to reach a total of 128,560.0 cars in 2022.

According to WTTC, the travel and tourism contribution to GDP in China reached \$0.58 trillion, an increase of 3% of the economy.
