Abstracts

City Profile %li%Delhi; Comprehensive overview of the city, PEST analysis and analysis of key industries including technology, tourism and hospitality, construction and retail

Summary

“City Profile %li%Delhi” provides historical and forecast data on key city level metrics along with analytical coverage of the latest political, economic, social, technological, infrastructural, legal and environmental issues affecting Bangalore.

The report contains detailed tourism, retail, construction, technology and public infrastructure data and insight into economic, social, and industry trends.

In 2023, Delhi NCT contributed approximately 3.4% to the country's GDP. The local economy grew by a modest 6.8% in real terms, driven by key service sectors including Banking, Financial Services, and Insurance (BFSI), Information Technology (IT), Information Technology-enabled Services (ITeS), and consulting, which are central to the NCT's business environment. Additionally, the dynamic real estate market and a rise in tourist arrivals further fueled its economic growth

Scope

The service sector is key driver of Delhi NCT's economy, accounting for 84.3% of the total GVA in 2023

In 2023, Delhi NCT's tourism sector rebounded strongly, driven by a surge in domestic tourism. Local travelers played a key role in this recovery, while international visitor spending continued to rise. The introduction of 'heritage walks' by the Delhi government in March 2023, showcasing the city's cultural heritage, further supported the sector. Additionally, hosting the G20 summit in September 2023 provided a significant boost, reinforcing its position as a vibrant tourism hub
