The report contains detailed tourism, retail, construction, technology and public infrastructure data and insight into economic, social, and industry trends.

The Frankfurt am Main Urban Zone is the largest urban zone in the Frankfurt/Rhine-Main metropolitan area which accounted for 4.4% of the country’s total Gross Domestic Product (GDP) in 2023. Frankfurt metropolitan area’s economy faced significant challenges amid a global economic slowdown and persistently high inflation in 2023. The uncertain global environment led to reduced demand for exports, negatively impacting key industries such as IT, manufacturing, and automobile sectors. Additionally, weakened consumer purchasing power, a shortage of skilled labor, and elevated energy and raw material costs further hindered growth in these sectors.

Scope

Frankfurt being home to the Deutsche Bundesbank, the European Central Bank and the German Stock Exchange, is continental Europe's most important finance capital. The service sector remains the key contributor to the area's economy and the major employer in 2023. More than 65% of total GVA comes from the financial intermediation and real estate sector along with the wholesale and retail trade, hotels and restaurants, and transportation sector

Frankfurt is a key tourist destination in Germany for both domestic and international tourists. The tourism sector continued to recover in 2023, with total guest arrivals increasing significantly to 3.7 million between January-August 2023. This resurgence was driven by strong summer demand and major city festivals, such as the Apple Wine Festival, Museumsuferfest, Rheingau Wine Market, and the Dippemess in autumn, which drew numerous visitors to the metropolitan area
