Abstracts

City Profile %li%Manila; Comprehensive overview of the city, PEST analysis and analysis of key industries including technology, tourism and hospitality, construction and retail

Summary

“City Profile %li%Manila” provides historical and forecast data on key city level metrics along with analytical coverage of the latest political, economic, social, technological, infrastructural, legal and environmental issues affecting Manila. The report contains detailed tourism, retail, construction, technology and public infrastructure data and insight into economic, social, and industry trends.

Manila metropolitan area, also known as Metro Manila, is the national capital region (NCR) of Philippines. The metropolitan area contributed 30.4% of the country’s total GDP in 2023. Metro Manila's real GDP growth moderated in 2023. This slowdown indicated the diminishing momentum of post-pandemic recovery. However, growth remained robust, driven by public investment, private spending, low unemployment, increased remittances, and a strong service sector, including tourism

Scope

The service sector mainly drives the economic growth of Manila metropolitan area, accounting for 80.4% of the total GVA in 2023

In 2023, Philippines international tourism revenue exceeded pre-pandemic levels. The Department of Tourism (DOT) supported this momentum by lifting remaining health protocols for tourism establishments. With rising international flights and tourist arrivals, the sector is nearing pre-pandemic levels and is expected to fully recover by the end of 2024
