Abstracts

Civil Engineering in France

Summary

Civil Engineering in France industry profile provides top-line qualitative and quantitative summary information including: market size (value 2016-20, and forecast to 2025). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

The civil engineering industry includes construction work classified as civil engineering (i.e. non-buildings), excluding companies working in the home-building subsector. The market value is calculated as the value of the construction of non-buildings. Where possible values are not adjusted seasonally. All currency conversions have been calculated using constant average 2019 annual rate.

The French civil engineering sector is forecast to generate total revenues of \$128.6bn in 2020, representing a compound annual rate of change (CARC) of -4% between 2016 and 2020.

The sector is already very mature, and a meaningful uptick in project spending has been elusive.

COVID-19's wider economic impact in France will certainly suppress growth over the forecast period.

Scope

Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the civil engineering market in France

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the civil engineering market in France

Leading company profiles reveal details of key civil engineering market players' global operations and financial performance

Add weight to presentations and pitches by understanding the future growth prospects of the France civil engineering market with five year forecasts

Reasons to Buy

What was the size of the France civil engineering market by value in 2020?

What will be the size of the France civil engineering market in 2025?

What factors are affecting the strength of competition in the France civil engineering market?

How has the market performed over the last five years?

What are the main segments that make up France's civil engineering market?

Contents

1 EXECUTIVE SUMMARY

- 1.1. Market value
- 1.2. Market value forecast
- 1.3. Geography segmentation
- 1.4. Market rivalry
- 1.5. Competitive Landscape

2 MARKET OVERVIEW

- 2.1. Market definition
- 2.2. Market analysis

3 MARKET DATA

- 3.1. Market value

4 MARKET SEGMENTATION

- 4.1. Geography segmentation

5 MARKET OUTLOOK

- 5.1. Market value forecast

6 FIVE FORCES ANALYSIS

- 6.1. Summary
- 6.2. Buyer power
- 6.3. Supplier power
- 6.4. New entrants
- 6.5. Threat of substitutes
- 6.6. Degree of rivalry

7 COMPETITIVE LANDSCAPE

- 7.1. Who are the leading players?

7.2. How well have leading players performed in the recent past?

7.3. What impact has COVID-19 had on players in this sector in 2020?

8 COMPANY PROFILES

8.1. Bouygues Batiment International

8.2. Eiffage SA

8.3. VINCI Construction France SAS

9 MACROECONOMIC INDICATORS

9.1. Country data

10 APPENDIX

10.1. Methodology

10.2. Industry associations

10.3. Related MarketLine research

10.4. About MarketLine
