KEY HIGHLIGHTS

The cloud computing industry consists of the Infrastructure as a Service (IaaS), Platform as a Service (PaaS) and Software as a Service (SaaS) segments. Values are calculated based on revenues accrued from these services. Any currency conversions used in this report have been calculated at constant 2019 annual average exchange rates. Figures presented in this report are calculated applying the "middle path" scenario - this is based on the current situation in countries where the epidemic burst first, like China as a model countries and the announcements made by governments, stating that the abnormal situation may last up to six months.

The German cloud computing industry had total revenues of \$12,524.5m in 2019, representing a compound annual growth rate (CAGR) of 34.7% between 2015 and 2019.

The SaaS segment was the industry's most lucrative in 2019, with total revenues of \$7,222.4m, equivalent to 57.7% of the industry's overall value.

The German cloud computing industry has grown at a faster rate than its main European competitor, the United Kingdom, and overtook it as the largest industry in the region in 2019.
