Abstracts

Construction in Asia-Pacific - Industry Chartbooks

SUMMARY

The construction industry is one of the largest industries in the world and supports thousands of other industries and millions of jobs. At a time of rapid economic growth from the East, gentrification of middle classes and the development of smart production methods and advanced home technology, the construction industry is set up for a major growth boom in the near future.

KEY HIGHLIGHTS

Asia has the largest regional share of the market, and its dominance is only expected to increase in the future.

China has the largest market share in the region.

The non-residential segment is the largest in the industry.

SCOPE

This report is a chartbook, which collects large datasets and displays them as easy-to-understand graphics and charts.

It identifies the largest country economies in a particular geography or grouping by 2019 nominal GDP.

It details the construction industries across a group of countries, providing historical market data, forecasts, segmentation, an overview of the leading players and a discussion of the impact of Covid-19 on the industry.

REASONS TO BUY

Provides an overview of the global and regional construction markets.

Provides market values and forecasts to 2024.

Details the segmentation of the market in each of the largest economies in the group.

Provides details on the leading companies in the industry, including financial performance indicators.

Discusses the impact of the ongoing Covid-19 pandemic on the industry.
