### Construction Materials in the Netherlands

#### SUMMARY

Construction Materials in the Netherlands industry profile provides top-line qualitative and quantitative summary information including: market size (value 2012-16, and forecast to 2021). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

#### SYNOPSIS

Essential resource for top-line data and analysis covering the Netherlands construction materials market. Includes market size and segmentation data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

#### KEY HIGHLIGHTS

The market is forecast to grow year on year boosted by demand from government plans and private builds.

#### SCOPE

- Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the construction materials market in the Netherlands
- Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the construction materials market in the Netherlands
- Leading company profiles reveal details of key construction materials market players' global operations and financial performance
- Add weight to presentations and pitches by understanding the future growth prospects of the Netherlands construction materials market with five year forecasts

#### REASONS TO BUY

- What was the size of the Netherlands construction materials market by value in 2016?
- What will be the size of the Netherlands construction materials market in 2021?
- What factors are affecting the strength of competition in the Netherlands construction materials market?
- How has the market performed over the last five years?
- What are the main segments that make up the Netherlands's construction materials market?
