SUMMARY

Consumer Electronics in Norway industry profile provides top-line qualitative and quantitative summary information including: market size (value 2014-18, and forecast to 2023). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The Electrical and Electronics Retail market is comprised of the sales of communications equipment, computer hardware and software, consumer electronics, household appliances, and photographic equipment.

Communications equipment includes retail sales only of answer machines, fax machines, fixed-line telephones, mobile phone accessories and mobile phones.

Computer hardware and software includes retail sales only of desktops and laptop computers, software, memory sticks, CD packs, hard disks and other data storage devices, computer peripherals, PDAs, organizers, calculators, and satellite navigation systems. Consumer electronics includes retail sales of CD players, DVD players and recorders, hi-fi systems, home theatres, in-car entertainment systems, portable digital radios, radios, televisions and video recorders, home use and portable games consoles. Household appliances includes major domestic appliances (air conditioners, dishwashers, dryers, freezers, hobs and extractors, microwave ovens, refrigerators, stoves, vacuum cleaners and washing machines) plus minor domestic appliances (blenders, coffee machines, deep fryers, food processors, grills, hair products, hair trimmers, curling tongs, razors, hand-held mixers, irons, juicers, kettles, stand

mixers, toasters, sun lamps and fans). Photographic equipment includes camcorders, cameras, projectors, camera and camcorder accessories, binoculars and telescopes. The market is valued at retail selling price (RSP) with any currency conversions calculated using constant 2018 annual average exchange rates.

The market had total revenues of \$5.1bn in 2018, representing a compound annual growth rate (CAGR) of 3.1% between 2014 and 2018.

The computer hardware and software segment was the market's most lucrative in 2018, with total revenues of \$1.5bn, equivalent to 29.9% of the market's overall value.

Growth has been slow but steady across most product types, thanks to the high penetration of devices such as smartphones, which are generating more rapid growth elsewhere.
