Control Systems in Germany - Market Summary, Competitive Analysis and Forecast to 2025

SUMMARY

Control Systems in Germany industry profile provides top-line qualitative and quantitative summary information including: market size (value 2016-20, and forecast to 2025). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The control systems market is made up of programmable logic controllers (PLC) and distributed control systems (DCS). It does not include PC-based control systems and software. A control system is a device, or set of devices, that manages, commands, directs or regulates the behavior of other device(s) or system(s). Industrial control systems are used in industrial production.

The German control systems market had total revenues of \$2.5bn in 2020, representing a compound annual growth rate (CAGR) of -1.0% between 2016 and 2020.

The PLC segment was the market's most lucrative in 2020, with total revenues of \$1.7bn, equivalent to 67.7% of the market's overall value.

The introduction of government policies to boost industrial production, such as

the Made in Germany: Industrial Strategy 2030, should benefit the market going forwards.
