Defense Spending in Indonesia - Market Summary, Competitive Analysis and Forecast to 2025

SUMMARY

Defense Spending in Indonesia industry profile provides top-line qualitative and quantitative summary information including: market size (value 2016-20, and forecast to 2025). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

Defense spending covers capital items, military personnel, government defense agencies, and related expenditure on defense and peacekeeping. The value of the market is taken to include both current and capital expenditure on the armed forces, including funding contributions to peacekeeping forces, such as the United Nations Peacekeeping Forces, defense ministries and other government agencies engaged in defense projects, paramilitary forces (when judged to be trained and equipped for military operations) and military space activities. Expenditure on personnel (including salaries and social services of both military and civil personnel, and retirement pensions of military personnel), procurement, research and development, infrastructure spending, military aid (taken as expenditure by the donor country) and general operations and maintenance are also included. Note that current expenditure on previous military activity such as veterans' benefits, weapon destruction, demobilization, and defense conversion are all excluded, as is expenditure on civil defense.

The Indonesian defense spending market had total budget allocation of \$8.4bn in 2020, representing a compound annual growth rate (CAGR) of 8.8% between 2016 and 2020.

Market consumption volume increased with a CAGR of 0.2% between 2016 and 2020, to reach a total of 398,500 active serving personnel in 2020.

Growth has been driven by a desire by President Joko Widodo to increase the self-sufficiency of Indonesia.
