SYNOPSIS

Essential resource for top-line data and analysis covering the Thailand electrical & electronics retail market. Includes market size and segmentation data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

KEY HIGHLIGHTS

The electrical and electronics retail market is comprised of the sales of communications equipment, computer hardware and software, consumer electronics, household appliances, and photographic equipment. Communications equipment includes retail sales only of answer machines, fax machines, fixed-line telephones, mobile phone accessories and mobile phones. Computer hardware and software includes retail sales only of desktops and laptop computers, software, memory sticks, CD packs, hard disks and other data storage devices, computer peripherals, PDAs, organizers, calculators, and satellite navigation systems. Consumer electronics includes retail sales of CD players, DVD players and recorders, hi-fi systems, home theatres, in-car

entertainment systems, portable digital radios, radios, televisions and video recorders, home use and portable games consoles. Household appliances includes major domestic appliances (air conditioners, dishwashers, dryers, freezers, hobs and extractors, microwave ovens, refrigerators, stoves, vacuum cleaners and washing machines) plus minor domestic appliances (blenders, coffee machines, deep fryers, food processors, grills, hair products, hair trimmers, curling tongs, razors, hand-held mixers, irons, juicers, kettles, stand mixers, toasters, sun lamps and fans). Photographic equipment includes camcorders, cameras, projectors, camera and camcorder accessories, binoculars and telescopes. The market is valued at retail selling price (RSP) with any currency conversions calculated using constant 2016 annual average exchange rates.

The Thai electrical and electronics retail market is expected to generate total revenue of \$7.8bn in 2017, representing a compound annual growth rate (CAGR) of 3.1% between 2013 and 2017.

The communications equipment segment is expected to be the market's most lucrative in 2017, with total revenue of \$3.4bn, equivalent to 44.1% of the market's overall value.

Photographic equipment is becoming obsolete to the casual consumer, with smartphones and tablets providing similar functionality but with much greater utility, explaining the segment's collapse in recent years. The smartphone's popularity has also contributed to the strength of the communications equipment segment.
