Employment Services in United Kingdom

SUMMARY

Employment Services in the United Kingdom industry profile provides top-line qualitative and quantitative summary information including: market size (value and volume 2015-19, and forecast to 2024). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

For the purposes of this profile, the Employment Services market consists of temporary and contract staffing services. Temporary staffing is where agencies supply workers to clients on a temporary basis, whereby the workers remain employees of the agency. Search and placement is where agencies recruit workers on behalf of clients, with these workers going on to become employees of the client.

The UK employment services market had total revenues of \$49.6bn in 2019, representing a compound annual growth rate (CAGR) of 5.8% between 2015 and 2019.

The temporary staffing segment was the market's most lucrative in 2019, with total revenues of \$42.6bn, equivalent to 85.9% of the market's overall value.

A low base for growth meant that the replenishment of supply in 2019 by UK nationals, coupled with an improved rate of GDP growth through most of the

year, created a particularly high up-swing in the market's value.
