Europe IT Services Market @Summary, Competitive Analysis and Forecast to 2027

SUMMARY

IT Services in Europe industry profile provides top-line qualitative and quantitative summary information including: market size (value 2017-22, and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The IT services industry is valued as the combination of the business process outsourcing (BPO) services market, the application services market and the infrastructure services market. Values include revenues generated from (a) signed deals that remain under contract and (b) new contracts signed within that particular calendar year.

The European IT services industry had total revenues of \$389.3 billion in 2022, representing a compound annual growth rate (CAGR) of 11.1% between 2017 and 2022.

The infrastructure services segment accounted for industry's the largest proportion in 2022, with total revenues of \$268.6 billion, equivalent to 69% of the industry's overall value.

Despite the global economic downturn and rising prices, the European IT

services industry still saw significant growth, and it is expected to continue to expand in the coming years. This is a result of increased operational resilience demands, accelerated investments in digital transformation, and improved operating resilience requirements.
