Key Highlights

Filana Therapeutics Inc. (Filana Therapeutics), previously known as Cassava Sciences Inc., is a biotechnology company focused on identifying and addressing disorders of the central nervous system. Its core work involves the development of both therapeutic and diagnostic solutions for conditions including Alzheimer's disease and epilepsy associated with Tuberous Sclerosis Complex (TSC). Key programs include simufilam, an orally administered small-molecule drug candidate, and SavaDx, a biomarker-based assay intended to aid in the detection of Alzheimer's disease. These offerings are primarily targeted at healthcare professionals and researchers in the neurodegenerative disease space. Filana Therapeutics also has a licensing arrangement with Yale to support the development and commercialization of simufilam for TSC-related epilepsy. The company operates internationally and maintains patent coverage in the United States, Europe, Australia, Israel, Canada, and Japan. Its headquarters are in Austin, Texas, USA.
