Footwear Global Industry Guide 2014-2023

SUMMARY

Global Footwear industry profile provides top-line qualitative and quantitative summary information including: market size (value 2014-18, and forecast to 2023). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Essential resource for top-line data and analysis covering the global footwear market. Includes market size and segmentation data, textual and graphical analysis of market growth trends and leading companies.

KEY HIGHLIGHTS

The footwear market consists of the total revenues generated through the sale of all types of men's, women's and children's shoes. It includes all footwear categories for men, women, boys and girls, but excludes sports-specific footwear.

The market is valued at retail selling price with any currency conversions calculated using constant annual average 2018 exchange rates.

The global footwear market is expected to generate total revenues of \$322.7bn in 2018, representing a compound annual growth rate (CAGR) of 4.5% between 2014 and 2018.

The women's footwear segment was the market's most lucrative in 2018, with

total revenues of \$172bn, equivalent to 53.3% of the market's overall value.

The growing popularity of sports footwear is driving growth in the market, thanks to the 'athleisure' trend that has swept across the world.
