The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The footwear market consists of the total revenues generated through the sale of all types of men's, women's and children's shoes. It includes all footwear categories for men, women, boys and girls, but excludes sports-specific footwear. All market data and forecasts are represented in nominal terms (i.e., without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2020 annual average exchange rates.

The South Korean footwear market had total revenues of \$5.9bn in 2020, representing a compound annual rate of change (CARC) of -4.5% between 2016 and 2020.

The women's footwear segment was the market's most valuable in 2020, with total revenues of \$3.1bn, equivalent to 52.1% of the market's overall value.

The Covid-19 pandemic had severe social and economic consequences during 2020 which caused consumers to spend less on consumer goods including footwear.
