Gas Utilities in Singapore

SUMMARY

Gas Utilities in Singapore industry profile provides top-line qualitative and quantitative summary information including: market size (value and volume 2014-18, and forecast to 2023). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

KEY HIGHLIGHTS

The gas utilities market covers all natural gas consumption, net of distribution or transmission losses, by end-users in the following categories: industrial (including use as a feedstock and autogeneration), commercial and public-sector organizations, residential consumers, electric power generation (including combined heat and power but excluding autogeneration and heat plant), and other (including transport, agriculture, centralized heat plant, and other usage). Values are calculated from segment volumes and the average annual price of gas charged to end-users in each segment net of any applicable taxes.

The Singaporean gas utilities industry had total revenues of \$24,182.1m in 2019, representing a compound annual growth rate (CAGR) of 5.8% between 2015 and 2019.

Industry consumption volume increased with a CAGR of 3.6% between 2015 and 2019, to reach a total of 472 billion cubic feet in 2019.

Following a decline in 2016, as a result of prices falling, the industry has

recovered with consistent double digit growth from 2017 to 2019.
