Generics in Singapore - Market @Summary, Competitive Analysis and Forecast to 2025

### SUMMARY

Generics in Singapore industry profile provides top-line qualitative and quantitative summary information including: market size (value 2016-20, and forecast to 2025). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### KEY HIGHLIGHTS

For the purposes of this profile, a generic drug is defined as a copy of an ethical (prescription) drug formerly protected by patents that have now expired. Both unbranded generics and all branded generics are included. However, off-patent drugs that continue to be offered by the original manufacturer under the original name, and which form part of the 'generic-eligible' market, are not included.

The Singaporean generics market had total revenues of \$0.4bn in 2020, representing a compound annual growth rate (CAGR) of 4.2% between 2016 and 2020.

Market consumption volume increased with a CAGR of 0.5% between 2016 and 2020, to reach a total of 89.8% in 2020.

The increasing market value is attributed to high life expectancy, expansion of healthcare system, developed medical infrastructure, improved patient access,

and an increasing number of foreign pharmaceutical companies with a regional headquarters.
