## Abstracts

Generics in South Korea - Market @Summary, Competitive Analysis and Forecast to 2025

### SUMMARY

Generics in South Korea industry profile provides top-line qualitative and quantitative summary information including: market size (value 2016-20, and forecast to 2025). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

### KEY HIGHLIGHTS

For the purposes of this profile, a generic drug is defined as a copy of an ethical (prescription) drug formerly protected by patents that have now expired. Both unbranded generics and all branded generics are included. However, off-patent drugs that continue to be offered by the original manufacturer under the original name, and which form part of the 'generic-eligible' market, are not included.

The South Korean generics market had total revenues of \$5.1bn in 2020, representing a compound annual growth rate (CAGR) of 4.3% between 2016 and 2020.

Market consumption volume increased with a CAGR of 3% between 2016 and 2020, to reach a total of 77.5% in 2020.

South Korea's demographic makeup presents similar issues to those in other

economies: rising incomes, a growing elderly population, and increased health insurance coverage, all of which are driving market growth.
